

Tips for selling

Little things make a difference!!

01

Don't forget to bring original attachments!

Missing manuals & remote will be deducted from the purchase price.

04

Electronics with a manufacturing date within 2 years will be valued at a higher price!

Sell us your electronic items before new model releases for the best value.

07

Popular or the latest models may have a better price.

Don't forget to bring original attachments such as cables and adapters.

10

You can sell accessories too!

Cables, A/C adapters & more.

02

Boxes are important for collectable figures & other previously packaged merchandise!

Figures with all extra parts will be valued higher.

05

No stains or dirt!

Better condition, better price!

08

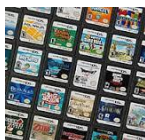

Sound or not. It matters for musical instruments!

It's important that musical instruments are intact. (Bridges & Pegs are not missing)

11

Game cartridge without box!

Super nintendo, Genesis and staff like that. Please bring them in.

03

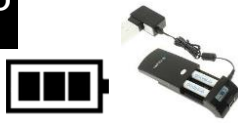

Car seats with a manufacturing date within 3 years will be valued at higher price!

Check valid date.

06

Always recharge your batteries!

We cannot determine the best value if we cannot test, turn on or recharge.

09

Brand new is always the best for sundries & dinnerwares!

If you haven't use them, bring them before you open the packaging.

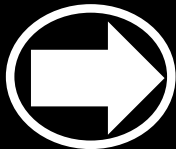

12

ASK!

Feel free to ask our friendly BookOff staff before giving up anything to sell.
